### Happy child, happy parent

Dutch children are considered the happiest in the world. Is that because of the use of Dooky's products? Obviously, we love to believe it is. A little bit of history first. Dooky was founded in 1997 in the Dutch village of Broek op Langedijk (close to Amsterdam). The main goal, from the start on, has al-ways been to supply parents with accessories for their babies and kids that are 100% safe, super convenient and above all a joy for the eyes.

### More quality time with your child

Having children ourselves, we know what is most valuable in life: spending time with our kids. That is why we decided to take relieving busy parents to the next level with our products. The less time you spend on daily business, the more time you can spend with your baby or child. Saving time for as many parents as possible was our main focus. By opting for an accessible pricing level we hope that as many parents as possible can make use of the benefits of our products. A unique proposition that has been a great success right from the start.

### From one single "Dooky" to hundreds of products

Let's go back to our first product. It all started with a "Dooky" ("cloth" in Dutch) that could be attached to a buggy or car seat with 5 rings as a cover to provide children with shade and tranquility. A genius invention so it seemed: this "Dooky" has been an ongoing bestseller for many years. Every day, new "dookies" find a happy owner. The "Dooky" has almost reached the collector's item status! After the "Dooky", hundreds of other products have been added to our range, all executed according to the above Dooky philosophy.

### Award winning products

Nowadays, we have won several awards with our Dooky products. One of the awards we are most proud of is the international Kind + Jugend Innovation Award. This prestigious design award is given to a baby product that scores the best in terms of design, safety, userfriendliness, craftsmanship and in-novation. Another prize we won is the 'Baby Product of the Year'-award in the Netherlands.

### Innovation, convenience, safety, style, design and control are key to succes

Dooky works according to the principles: innovation, convenience, safety, style, design and control. With these pillars in mind, we daily work with a permanent team to design articles that are not only useful but also look good. By inventing everything ourselves, from design to packaging and ma-terial, we keep it affordable and we can guarantee the best quality. Next to that all our products meet the highest safety standards.

### Corporate Social Responsibility: Business Social Compliance Initiative

We are closely involved in the entire production process and continuously audit the affairs of suppliers and producers. The factories we work with are part of the Business Social Compliance Initiative (BSCI). By working in this way, we are committed to improve the conditions for everyone we work with. In this way, we hope to be able to make a difference in the field of corporate social responsibility throughout the whole product chain.
